PART 301—DOMESTIC QUARANTINE NOTICES

SUBPART-SWEETPOTATOES

ADMINISTRATIVE INSTRUCTIONS AUTHORIZING MOVEMENT FROM PUERTO RICO OF CERTAIN SWEETPOTATOES GROWN UNDER SPECIFIED CONDITIONS

On January 4, 1955, notice of rule making was published in the FEDERAL REGIS-TER (20 F R. 82) concerning the proposed issuance of administrative instructions authorizing movement from Puerto Rico of certain sweetpotatoes grown under specified conditions. After due consideration of all relevant matters presented pursuant to the notice of rule making and under the authority of the second proviso of paragraph (c) of the Sweetpotato Quarantine No. 30 (7 CFR 301.30, 19 F R. 198) issued under sections 8 and 9 of the Plant Quarantine Act of August 20, 1912, as amended (7 U.S. C. 161, 162) administrative instructions to appear as § 201.30a in Title 7, Code of Federal Regulations (7 CFR 301.30a) are hereby issued as follows:

§ 301.30a Administrative instructions authorizing movement from Puerto Rico of certain sweetpotatoes grown under specified conditions. The Chief of the Plant Quarantine Branch hereby finds that facts exist as to the pest risk involved in the movement of sweetpotatoes to which § 301.30 applies, making it safe to modify by making less stringent the requirements of § 301.30 with respect to washed sweetpotatoes graded by inspectors of the Commonwealth of Puerto Rico in accordance with Puerto Rican standards which do not provide a tolerance for insect infestation or evidence of insect injury and found by such inspectors to comply with such standards. Hereafter, in addition to movement authorized under § 301.30 (c) such sweetpotatoes will be eligible for inspection by a Branch inspector to determine whether

they are free of the sweetpotato scarabee (Euscepes postfasciatus Fairm.) and for certification for movement from Puerto Rico to Baltimore, Maryland, and Atlantic Coast ports north thereof if found free of such insect, provided the sweetpotatoes are certified by an inspector of the Commonwealth of Puerto Rico as having been so washed and graded and as having been grown in accordance with the following procedures:

(a) Fields in which the sweetpotatoes have been grown shall have been given a preplanting treatment with an approved soil insecticide.

(b) Before planting in such treated fields, the sweetpotato draws and vine cuttings shall have been dipped in an approved insecticidal solution.

(c) During the growing season an approved insecticide shall have been applied to the vines at prescribed intervals.

The sweetpotatoes shall be inspected by an inspector of the Plant Quarantine Branch prior to shipment from Puerto Rico.

These instructions relieve restrictions now applicable by authorizing an alternate procedure as a condition for the issuance of certificates for the movement to Baltimore, Maryland, and Atlantic Coast ports north thereof, of certain Puerto Rican sweetpotatoes which involve less pest risk than other Puerto Rican sweetpotatoes.

(Sec. 9, 37 Stat. 318, 7 U. S. C. 162. Interprets or applies sec. 8, 37 Stat. 318, as amended; 7 U. S. C. 161)

These instructions shall be effective on January 26, 1955.

Since these administrative instructions relieve restrictions, they are within the exception in section 4 (c) of the Administrative Procedure Act (5 U. S. C. 1003 (c)) and may properly be made effective less than 30 days after their publication in the Federal Register.

Done at Washington, D. C., this 21st day of January 1955.

E. P REAGAN,

Chief,

Plant Quarantine Branch.

[Navel Orange Reg. 43, Amdt. 1]

PART 914—NAVEL ORANGES GROWN IN ARIZONA AND DESIGNATED PART OF CALI-FORNIA

LIMITATION OF HANDLING

Findings. 1. Pursuant to the marketing agreement, as amended, and Order No. 14, as amended (7 CFR 914, 19 F R. 2941) regulating the handling of Navel oranges grown in Arizona and designated part of California, effective September 22, 1953, under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601 et seq.) and upon the basis of the recommendation and information submitted by the Navel Orange Administrative Committee, established under the said amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of handling of such Navel oranges, as hereinafter provided, will tend to effectuate the declared policy of the act.

2. It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule making procedure, and postpone the effective date of this amendment until 30 days after publication thereof in the FEDERAL REGISTER (60 Stat. 237 5 U.S. C. 1001 et seq.) because the time intervening between the date when information upon which this amendment is based became available and the time when this amendment must become effective in order to effectuate the declared policy of the act is insufficient, and this amendment relieves restrictions on the handling of Navel oranges grown in Arizona and designated part of California.

Order as amended. The provisions in paragraph (b) (1) (i) of § 914.343 (Navel Orange Regulation 43, 20 F R. 364) are hereby amended to read as follows:

(i) District 1, 415,800 boxes.

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. 608c)

Dated: January 21, 1955.

It may also contain one, but only one, of the ingredients prescribed in paragraph (a) of this section, in the amount specified by that paragraph, and if it is intended for continuation of coccidiosis prevention in chickens and turkeys it may also contain, in the amount specified, one. but only one, of the ingredients specified in subparagraph (1) of this paragraph. or nicarbazin in a quantity by weight of feed, as specified in subparagraph (20) of this paragraph,

- 5. Section 146a.89 is amended in the following respects:
- a. The section headnote and introductory paragraph are amended to read as follows:

§ 146a.89 Procaine penicillin-streptomycin-neomycin in oil, procaine penicillin-dihydrostreptomycin-neomycin in oil, procaine penicillin-streptomycin neomycin oil, procaine penicillin-streptomycin-neomycin oil not neomycin oil not penicillin-streptomycin-neomycin in oil or procaine penicillin-dihydrostreptomycin-neomycin in oil oil not neomycin in oil neomycin in oil requirements and is subject to all procedures prescribed by § 146a.57 for procaine penicillin and

streptomycin in oil and procaine penicillin and dihydrostreptomycin in oil. Procaine penicillin-streptomycin-neomycin ointment or procaine penicillin-dihydrostreptomycin-neomycin ointment conforms to all requirements and is subject to all procedures prescribed by § 146a.54 for procaine penicillin-streptomycin ointment and procaine penicillin-dihydrostreptomycin ointment, except that:

- b. Section 146a.89 (c) is amended to read as follows:
- (c) In addition to complying with the requirements of § 146a.54 (c) or § 146a.57 (a) (4) a person who requests certification of a batch shall submit with his request a statement showing the number of milligrams of neomycin in each milliliter or gram of the batch, the batch mark, and (unless it was previously submitted) the results and the date of the latest tests and assays of the neomycin used in making the batch for potency toxicity, moisture, and pH. He shall also submit in connection with his request a sample consisting of not less than 7 immediate containers of the batch and (unless it was previously submitted) a sample consisting of 5 packages containing approximately equal portions of not less than 0.5 gram each of the neomycin used in making such batch.
- 6. Part 146a is amended by adding the following new section:
- § 146a.102 Benzathine penicillin G-procaine penicillin G-streptomycin in oil, benzathine penicillin G-procaine penicillin G-dihydrostreptomycin in oil.

 (a) Benzathine penicillin G-procaine penicillin G-streptomycin in oil and benzathine penicillin G-procaine penicillin G-dihydrostreptomycin in oil conform to all requirements and are subject to all procedures prescribed by § 146a.101 for benzathine penicillin G and procaine penicillin G in oil, except that:
- (1) Each milliliter shall contain not less than 250 milligrams of streptomycin or dihydrostreptomycin. The streptomycin used conforms to the standards prescribed by § 146b.101 (a) of this chapter. The dihydrostreptomycin used conforms to the standards prescribed by § 146b.103 of this chapter.
- (2) In lieu of the directions for labeling prescribed for benzathine penicillin G and procaine penicillin G in oil by § 146a.101 (a) (3) each package shall bear on the outside wrapper or container and the immediate container the number of units of benzathine penicillin G, the number of units of procaine penicillin G, and the number of milligrams of streptomycin or dihydrostreptomycin in each milliliter of the batch.
- (3) In addition to complying with the requirements of § 146a.101 (a) (4) a person who requests certification of a batch shall submit with his request a statement showing the batch mark and (unless it was previously submitted) the results and the date of the latest tests and assays of the streptomycin or dihydrostreptomycin used in making the batch for potency sterility, toxicity,

pyrogens, histamine, moisture, pH, streptomycın content if it is dihydrostreptomycin, and crystallinity if it is crystalline dihydrostreptomycin, and the number of units of benzathine penicillin G and procaine penicillin, and the number of milligrams of streptomycın or dihydrostreptomycın ın each milliliter of the batch. He shall also submit in connection with his request a sample consisting of not less than 5 immediate containers of the batch and (unless it was previously submitted) a sample consisting of 5 packages (for all tests except sterility) and 10 packages (for sterility testing) each containing approximately 0.5 gram of the streptomycin or dihydrostreptomycin used in making the batch, packaged in accordance with the requirements of § 146b.101 (b) of this chapter.

- (b) The fee for the services rendered with respect to each immediate container in the sample of streptomycin or dihydrostreptomycin submitted, for all tests except sterility in accordance with the requirements prescribed by this section, shall be \$10.00.
- 7. Section 146c.203 is amended as follows:
- a. The section headnote and paragraph (a) are changed to read:
- § 146c.203 Chlortetracycline troches (chlortetracycline hydrochloride troches) tetracycline hydrochloride troches—(a) Standards of identity, strength, quality, and purity. Chlortetracycline troches and tetracycline hydrochloride troches are troches composed of crystalline chlortetracycline or crystalline tetracycline hydrochloride and one or more suitable and harmless diluents, binders, and lubricants, with or without one or more suitable and harmless preservatives, colorings, and flavorings. The potency of each troche is not less than 5 milligrams; the moisture content is not more than 2 percent. The chlortetracycline used conforms to the requirements of \$146c.201 (a) except \$ 146c.201 (a) (1) (2) (4) and (5) but its potency is not less than 750 micrograms per milligram. The tetracycline hydrochloride used conforms to the requirements of § 146c.218 (a) except § 146c.218 (a) (2) (4) and (5) Each other substance used, if its name is recognized in the U.S.P or N.F., conforms to the standards prescribed therefor by such official compendium.
- b. Paragraph (b) *Packaging* is amended by deleting the word "chlortetracycline" from the first sentence.
- c. Paragraph (c) Labeling is amended by deleting the word "chlortetracycline" from the introductory sentence.
- d. In Paragraph (d) Request for certification, samples, subparagraph (1) is amended by deleting the word "chlor-tetracycline" where it first appears and by changing the words "the chlortetracycline used" to read "the chlortetracycline or tetracycline hydrochloride used"
- e. Paragraph (d) (2) (ii) is changed to read.

- (ii) The chlortetracycline or tetracycline hydrochloride used in making the batch, purity, toxicity moisture, pH, crystallinity, and extinction coefficient if it is tetracycline hydrochloride.
- f. Paragraph (d) (3) (ii) is amended by changing the word "chlortetracycline" to read "chlortetracycline or tetracycline hydrochloride."
- g. Paragraph (e) Fees is amended by deleting the word "chlortetracycline" from the introductory sentence.
- 8. In § 146d.301 Chloramphenicol paragraph (c) (1) (iii) is amended by changing the figure "48" to "60"

(Sec. 701, 52 Stat. 1055; 21 U. S. C. 371. Interpret or apply sec. 507, 59 Stat. 463, as amended; 21 U. S. C. 357)

Notice and public procedure are not necessary prerequisites to the promulgation of this order, and I so find, since it was drawn in collaboration with interested members of the affected industry, since it would be against public interest to delay providing for the aforesaid amendments, and since it conditionally relaxes existing requirements.

I further find that animal feeds that contain certain specified antibiotic drugs and acétyl (paranitrophenyl) sulfanilamide, dibutyl tin dilaurate, dintrophenylenediamine, and 3-nitro-4-hydroxyphenylarsonic acid, or dienestrol diacetate, when such feeds are intended for the prevention or cure of certain diseases in chickens or turkeys or to affect the growth of such poultry need not comply with the requirements of sections 502 (1) and 507 of the Federal Food, Drug, and Cosmetic Act in order to insure the safety and efficacy of such feeds when used for the intended purposes.

This order shall become effective upon publication in the FEDERAL REGISTER, since both the public and the affected industry will benefit by the earliest effective date, and I so find.

Dated. January 20, 1955.

TITLE 33—NAVIGATION AND NAVIGABLE WATERS

Chapter I—Coast Guard, Department of the Treasury

Subchapter D-Navigation Requirements for Certain Inland Waters

ICGFR 54-551

PART 80-PILOT RULES FOR INLAND WATERS

LIGHTS FOR RAFTS AND OTHER CRAFT

A notice regarding proposed changes in the navigation and vessel inspection rules and regulations was published in the Federal Register dated August 20. 1954 (19 F R. 5315-5319) as Items I to XXVII, inclusive, on the Agenda to be considered by the Merchant Marine Council, and a public hearing was held on September 21, 1954, at Washington, D. C. This document is the fourth of a series of documents covering the rules and regulations considered at this public hearing.

All the comments, views, and data submitted in connection with the items considered by the Merchant Marine Council at this public hearing have been very helpful to the Coast Guard and are very much appreciated. On the basis of the information received certain proposed regulations were revised. However, acknowledgment of the comments received or reasons why the suggested changes were or were not adopted can-

This amendment is effective immedi- not be furnished since personnel is not available to handle the necessary correspondence. This document contains the amendments based on Item I of the Agenda considered by the Merchant Marine Council.

The note to be added after 33 CFR 80.16 is to clarify the application of the regulations in §§ 80.16 to 80.17, inclusive.

The amendment to 33 CFR 80.32 revises the requirements regarding lights for rafts propelled by hand power, horse power, by the current of the river, or while being towed, or while being anchored or moored in or near a channel or fairway. The major change will require the carrying of a light at each end of the raft if consisting of one crib in width or one bag or boom in width. If the raft is more than one crib or bag or boom in width, then four white lights are required, one on each outside corner. The revised regulation also provides special requirements for unstable log

By virtue of the authority vested in me as Commandant, United States Coast Guard, by Treasury Department Order No. 120, dated July 31, 1950 (15 F R. 6521) to promulgate regulations in accordance with the statutes cited with the regulations below, the following amendments to the regulations are prescribed which shall become effective thirty days after the date of publication of this document in the Federal REGISTER:

1. Part 80 is amended by adding a note to follow after § 80.16, reading as follows:

§ 80.16 Lights for barges, canal boats, scows and other nondescript vessels on certain inland waters on the Atlantic and Pacific Coasts.

Note: The regulations in §§ 80.16 to 80.17, inclusive, are not applicable to rafts. The requirements regarding lights for rafts are in § 80.32.

2. Section 80.32 is amended to read as follows:

§ 80.32 Lights for rafts and other craft. (a) Any vessel propelled by hand power, horse power, or by the current of the river, except rafts and rowboats, shall carry one white light forward not less than 8 feet above the surface of the water.

- (b) Any raft while being propelled by hand power, by horse power, or by the current of the river, while being towed, or while anchored or moored in or near a channel or fairway shall carry white lights as follows:
- (1) A raft of one crib in width shallcarry one white light at each end of the raft.
- (2) A raft of more than one crib in width shall carry 4 white lights, one on each outside corner.
- (3) An unstable log raft of one bag or boom in width shall carry at least 2 but not more than 4 white lights in a fore and aft line, one of which shall be at each end. The lights may be closely grouped clusters of not more than 3 white lights rather than single lights.
- (4) An unstable log raft of more than one bag or boom in width shall carry 4 white lights, one on each outside corner.

The lights may be closely grouped clusters of not more than 3 white lights rather than single lights.

(c) The white lights required by this section shall be carried from sunset to sunrise, in a lantern so fixed and constructed as to show a clear, uniform, and unbroken light, visible all around the horizon, and of such intensity as to be visible on a dark night with a clear atmosphere at a distance of at least one mile. The lights for rafts shall be suspended from poles of such height that the lights shall not be less than 8 feet above the surface of the water, except that the lights prescribed for unstable log rafts shall not be less than 4 feet above the water.

(Sec. 8, 18 Stat. 127, as amended; 14 U. S. C. 92. Interpret or apply secs. 1, 2, 30 Stat. 98, as amended, 102, as amended; 33 U.S.C. 157, 178)

Paragraph (h) of § 13.61 of the rules governing commercial radio operators is amended to read as follows:

- (h) Restricted radiotelephone operator permit. Any station except:
- (1) Stations transmitting television, or (2) Stations transmitting telegraphy
- by any type of the Morse Code, or
 (3) Any of the various classes of
 broadcast stations other than remote

pickup, broadcast STL, and FM intercity relay stations, or

(4) Ship stations licensed to use telephony for communication with Class I coast stations on frequencies between 4000 kc and 30 Mc, or

(5) Radio stations provided on board vessels for safety purposes pursuant to statute or treaty or

(6) Coast stations other than in the territory of Alaska while employing a frequency below 30 Mc, or

(7) Coast stations at which the power in the antenna of the unmodulated carrier wave is authorized to exceed 250 watts:

(8) At a ship radar station the holder of this class of license may not supervise or be responsible for the performance of

any adjustments or tests.during or coincident with the installation, servicing or maintenance of the radar equipment while it is radiating energy *Provided*, That nothing in this subparagraph shall be construed to prevent any person holding such a license from making replacements of fuses or of receiving type tubes:

Provided, That, with respect to any station which the holder of this class of license may operate, such operator is prohibited from making any adjustments that may result in improper transmitter operation, and the equipment is so designed that the stability of the frequencies of the transmitter is maintained by the transmitter itself

within the limits of tolerance specified by the station license, and none of the operations necessary to be performed during the course of normal rendition of the service of the station may cause offfrequency operation or result in any unauthorized radiation, and any needed adjustments of the transmitter that may affect the proper operation of the station are regularly made by or under the immediate supervision and responsibility of a person holding a first- or second-class commercial radio operator license, either radiotelephone or radiotelegraph, who shall be responsible for the proper functioning of the station equipment.

REVISION OF FCC FORM 302, APPLICATION FOR NEW BROADCAST STATION LICENSE

NOTICE OF EXTENSION OF TIME FOR FILING COMMENTS

1. On December 17, 1954, the Commission issued a notice of proposed rule making in the above-entitled matter proposing to revise FCC Form 302—Application for New Broadcast Station License. The time for filing comments in the proceeding was specified as January 21, 1955, with reply comments due 10 days from that date.

2. On January 14, 1955, the National Association of Radio and Television Broadcasters (NARTB) filed a request for an extension of time for a period of 30 days in which to file comments in this proceeding. NARTB notes that the revisions proposed in this proceeding are predominantly of an engineering nature, and states that it is desirous of obtaining further information from various equipment manufacturers and licensees in preparing its comments. NARTB states that it submits all television engineering problems upon which it contemplates taking a position on behalf of the industry to an Engineering Advisory Committee. It is submitted, however, that it has been impossible for this group to meet prior to January 21, 1955, the date for filing comments and, accordingly, it is requested that the date for filing comments in the proceeding be extended for

3. Upon our consideration of the NARTB request, we are of the view that an extension of time within which to file comments in this proceeding is warranted and would serve the public interest, convenience, and necessity.

4. In view of the foregoing, notice is hereby given that the time for filing comments in the above-entitled proceeding is extended to February 21, 1955. Replies to such comments may be filed within 10 days from the above date.

Adopted. January 21, 1955.

Released: January 21, 1955.

PUBLIC SAFETY RADIO SERVICES

NOTICE OF PROPOSED RULE MAKING

In the matter of amendment to Part 10 of the Commission's rules and regulations to effectuate the Commission's CONELRAD Plan for the Public Safety Radio Services; Docket No. 11254.

- 1. The Commission has before it the approved CONELRAD Plan for the Public Safety Radio Services. This plan was developed in cooperation with the licensees, the Department of Defense and the Office of Defense Mobilization. In order to put this plan into effect it is necessary to modify Part 10 of the Commission's rules and regulations as set forth below.
- 2. These proposed amendments are promulgated by authority of sections 303 (r) and 606 (c) of the Communications Act of 1934 as amended and Executive Order No. 10312-signed by the President December 10, 1951.
- 3. Any interested party who is of the opinion that the proposed amendment

should not be adopted or should not be adopted in the form set forth herein may file on or before March 1, 1955, a written statement or brief setting forth his comments. Comments in support of the proposed amendment may also be filed on or before the same date. Comments or briefs in reply to the original comments may be filed within one week from the last day for filing said original comments or briefs. The Commission will consider all such comments that are submitted before taking action in this matter, and, if any comments appear to warrant the holding of a hearing or oral argument, a notice of the time and place of such hearing or oral argument will be

4. In accordance with the provisions of § 1.764 of the Commission's rules and regulations, an original and 14 copies of all statements, briefs, or comments shall be furnished the Commission,

Adopted. January 19, 1955. Released: January 20, 1955.

Federal Communications
Commission,
[SEAL] Mary Jane Morris,
Secretary.

It is proposed to add the following new section.

- § 10.166 CONELRAD rules for the Public Safety Radio Services—(a) Scope and objective. (1) This section applies to all radio stations in the Public Safety Radio Services and is for the purpose of providing for the alerting and operation of radio stations in these services during periods of air attack or imminent threat thereof. The objective is to minimize the navigational aid that may be obtained by an enemy from the electromagnetic radiations emanating from radio stations in the Public Safety Radio Services while simultaneously providing for continued radio service under controlled conditions when such operation is essential to the public welfare.
- (2) The Commission will release and maintain a CONELRAD Manual which may be used by licensees in the Public Safety Radio Services as a guide in selecting methods of alerting and operating radio stations in these services in order to effect compliance with the requirements of this section.
- (b) General. All radio stations in the Public Safety Radio Services are required to provide for receiving the Radio Alert and to operate in accordance with this section.
- (c) Definitions. (1) The term "CONELRAD" is a contraction of the words "Control of Electromagnetic Radiation" and is the general term applied to the controlled operation of radio facilities under the authority of Executive Order 10312 dated December 10, 1951.
- (2) CONELRAD Radio Alert is the term applied to the Military Warning that an air attack is probable or imminent which automatically orders the immediate implementation of CONELRAD procedures for all radio stations. The CONELRAD Radio Alert is distinct from the military or Civil Air Defense Warnings Yellow or Red, but may be coincidental with such warnings.

- (3) An Air Defense Control Center (ADCC) is an air operations center from which an Air Division (Defense) Commander supervises and coordinates air defense activities within an air defense sector, including dissemination of warnings, identification and security of air traffic, and the utilization of available combat forces in support of the National Air Defense effort.
- (4) The CONELRAD Radio All Clear is the Department of Defense order to discontinue CONELRAD requirements as imposed by an outstanding CONELRAD Radio Alert. It is initiated only by the Air Division (Defense) Commander or higher military authority
- (5) As used in this section the term "licensee" means the holder of any form of authority issued by the Federal Communications Commission pursuant to which a radio station may be operated including construction permits, station licenses, temporary authorizations, etc.
- (d) Alerting. The licensee of a radio station in the Public Safety Radio Services will be responsible for making provisions to receive the CONELRAD Radio Alert and for receiving the CONELRAD Radio Alert. Public Safety Radio systems comprised of one or more base and/ or fixed stations with associated mobile units may if desired, be alerted at only one point, normally the control point of the primary base station. The control point receiving the Alert will be responsible for the dissemination of the CONELRAD Radio Alert to all stations integrated into the single radio system and insuring that all such associated stations execute CONELRAD requirements immediately. Base fixed or mobile stations not directly receiving the CONELRAD Radio Alert must use caution after an "out of service" period to insure that a CONELRAD Radio Alert is not in progress before making any transmissions. Radio stations in the Public Safety Radio Services will immediately comply with CONELRAD rules and regulations upon receipt of one or more of the following alerts:
- Initiation of CONELRAD plans by Standard, FM and TV broadcast stations.
- (2) Receipt of an Air Defense Warning Yellow (or Warning Red if no Warning Yellow is issued) from a Civil Air Defense Warning Net or extension thereof.
- (3) By other means, if so authorized by the Federal Communications Com-
- (e) Operation during a CONELRAD Radio Alert. Immediately upon receipt of a CONELRAD Radio Alert all radio stations in the Public Safety Radio Services will operate in accordance with the following limitations unless specifically directed otherwise by the Federal Communications Commission.
- (1) No transmissions shall be made unless they are of extreme emergency affecting the national safety or the safety of people and property.
- (2) Transmissions shall be as short as possible. The station carrier shall be removed from the air during periods of no message transmission.

- (3) No station identification shall be given either by announcement of FCC Assigned Call Signals or announcement of station location. If identification is necessary to carry on the service, special station or unit identifiers may be used in accordance with § 10.152 (b)
- (f) Special limitations. In addition to limitations specified in this section, it may be necessary for the Commission to require that some radio stations in the Public Safety Radio Services remain silent or operate under special limitations during the CONELRAD Radio Alert. Such decision shall be made after a special investigation and the specific stations shall be notified if special limitations are required. Special limitations are required. Special limitation requirements generally will be necessary for radio stations in the Public Safety Radio Services operating below 3200 kc.
- (g) All clear At the conclusion of the CONELRAD Radio Alert and when the CONELRAD All Clear is issued, each Standard, FM and TV broadcast station will broadcast an All Clear message. Radio stations in the Public Safety Radio Services may resume normal operation when the CONELRAD Radio All Clear message is transmitted by Standard, FM or TV broadcast stations unless otherwise restricted by the Federal Communications Commission.
- (h). Alerting system test. Tests of the Public Safety Radio Services alerting system may be conducted from time to time to insure proper compliance with alerting requirements.
- (i) CONELRAD operating plan tests. Tests of the Public Safety Radio Services CONELRAD operating plan may be conducted whenever such tests are determined to be necessary or desirable.
- (j) Log entries. Appropriate records of all CONELRAD tests and operation shall be maintained as a part of the log of radio stations in the Public Safety Radio Services.
- (k) Special operation. In certain cases the Commission may authorize specific stations to operate during a CONELRAD Radio Alert in a manner not covered by this section, provided, such operation is determined to be necessary in the interest of National Defense or the public welfare.

ORDER DESIGNATING APPLICATION FOR HEARING ON STATED ISSUES

In re application of Newport Broadcasting Company (KNBY) Newport, Arkansas, Docket No. 10883, File No. BP-9081, for construction permit.

At a session of the Federal Communications Commission held at its offices in Washington, D. C., on the 19th day of January 1955;

The Commission having under consideration the above-entitled application for construction permit to change the frequency of Station KNBY, Newport, Arkansas, from 1280 kilocycles to 730 kilocycles with 1000 watts power, daytime only (File No. BP-9081)

It appearing that the applicant is legally, technically financially and otherwise qualified to operate Station KNBY as proposed, but that the operation as proposed may involve interference with Stations KTRY, Bastrop, Louisiana; and KWRE, Warrenton, Missouri; and

It further appearing that the Commission, in a letter dated November 12, 1954 notified the applicant of the above-described interference and addressed copies of the letter to the stations which would receive interference; and

It further appearing that the licensees of stations KWRE and KTRY filed timely oppositions to the subject application; and

It further appearing that the applicant filed a timely reply asking that its application be designated for hearing; and that an issue involving the applicability of section 307 (b) of the Communications Act of 1934, as amended, be included; and

It further appearing that a section 307 (b) issue is unnecessary in non-comparative cases, such as the instant case; and

It further appearing that the Commission, after consideration of the replies, is of the opinion that a hearing is necessary.

It is ordered, That pursuant to section 309 (b) of the Communications Act of 1934, as amended, the above-entitled application of Newport Broadcasting Company, is designated for hearing at a time and place to be specified in a subsequent order, upon the following issues:

1. To determine the areas and populations which may be expected to gain or lose primary service from the operation of the proposed station and the availability of other primary service to such areas and populations.

2. To determine whether the proposed operation would involve interference with Stations KTRY, KWRE and any other existing stations and if so, the nature and extent thereof, the area and populations affected thereby, and the availability of other primary service to such areas and populations.

3. To determine whether in light of the evidence adduced pursuant to the foregoing issue the proposed operation of Station KNBY would serve the public interest, convenience, and necessity.

It is further ordered, That Morehouse Broadcasting Co., licensee of Station KTRY, Bastrop, Louisiana, and William T. Zimmerman, licensee of Station KWRE, Warrenton, Missouri, are made parties to the proceeding.

The Commission having under consideration the scheduled hearing date in this proceeding and the facts and circumstances made known on the record at the prehearing conference on January 19, 1955, and

It appearing that counsel for the Chief of the Broadcast Bureau intends to present for Commission consideration a petition to enlarge the issues so as to permit inquiry about the qualifications of the applicant, Monmouth County Broadcasters, in relation to events and circumstances involved in the proceedings in Dockets 11045 and 11046 (Mid-Atlantic Broadcasting Co. (WMID)) and

It further appearing that the nature and scope of the matters at issue in this proceeding cannot be definitely discerned until the Commission acts upon matters to be presented by Broadcast Bureau; and

It further appearing that the prehearing conference cannot be effectively pursued and concluded until the issues are settled by the Commission, and accordingly that a continuance of the prehearing conference and a postponement of the scheduled hearing date will conduce to the orderly dispatch of the Commission's business; now therefore: It is ordered, This 20th day of January 1955, that the hearing which is scheduled to be commenced on Tuesday, February 8, 1955, and the further prehearing conference in this proceeding be and they are hereby continued to such dates as may be fixed by subsequent order.
